

PLAYERS

At the very heart of the SJCC we find you, our players. In raising awareness of these core values we hope that your enjoyment and love for the game continue to grow. Play with passion. Play within The Spirit of Cricket. Play with a smile.

SPIRIT

- Recognise and celebrate good play, respect players and officials, be gracious in victory and defeat and aim to be a positive role model to your peers.
- Be a good sport by always shaking hands or giving three cheers to your opposition after the game.
- Say thank you to the people who help get the game on for you each week – the coaches, team managers and officials but also your parents, guardians and other spectators too.

INCLUSION

- It is important to remember that cricket is a game for everyone.
- Cricket is a team sport, and it is only fair to make sure that you and your teammates all get a chance to bat, bowl and/or keep wicket in each game.
- If you feel that you or a teammate is missing out please tell an adult like your team manager or parent/guardian.

ENJOYMENT

- Always try to play and practice with a smile on your face, it will rub off on your teammates!
- Winning games of cricket is fun, but making sure that everyone who is playing is enjoying the game is very important.
- If you or a teammate is not having fun, it is important that you tell a grown up.
